GATES DIRECTORS ALL OUT.

OSGOOD IN PRESENT CONTROL OF COLORADO FUEL AND IRON.

Gates and His Party Come East, Still Full of Fight and Saying They'll Win Out -Alleged Treachery of Osgood to an Agreement Made With Gates.

DENVER, Aug. 21 .- The Gates faction have retired from the directorate of the Colorado Fuel and Iron Company, but they have by no means given up their fight for control of the property. They issued the

following statement last night: Mesers. Mitchell, Gates, Blair and Lambert, who are conducting the pending fight on behalf of the owners of four-fifths of the capital stock of the Colorado Fuel and Iron Company to secure control of their property, announce that they have tendered their resignations as directors of that company; that the same became operative to-day. They are taking active measures to vindicate their rights as stockholders possessed by themselves and those they represent. They will also, in a few days, present a report to their principals.

The injunction procured to-day was upon the application of one Bartlett, the holder of ten shares of preferred and five shares of common stock, a confederate of the present chairman, Mr. Osgood, upon the ground, in part, of the deliberate suppression by the existing management of the local notice of the annual meeting.

Fair-minded men must appreciate, and be assured, that the efforts to perpetuate control through such means must necessarily fail.

Contracted his associates Messrs, Mit-

Gates and his associates, Messra. Mitchell, Lambert and Blair, left for Chicago this afternoon over the Santa Fé road. They have delegated to their attorneys here the task of continuing the fight against Chairman Osgood for control of the Colorado Fuel and Iron Company. The ex parte injunction issued by Judge Mullins, which caused an indefinite adjournment of the annual meeting of shareholders, may be argued next Monday, five days being allowed the defendants under the law to file their answer to the petition of George E. Bartlett, on which the injunction was

Mr. Gates is confident of victory and will go to New York to present his claim to holders of stock in the East. It is conceded that finally the majority of stock will win and it is also conceded that a compromise is almost an impossibility osgood management will remain until an election is held.

It is now said that a year ago, when Gates It is now said that a year ago, when Gates and his friends had bought largely of the securities of the Colorado company, Osgood signed an agreement to elect six directors for the Gates crowd, six for himself and the thirteenth was to be John J. Mitchell, president of the Illinois Trust and Savings Bank of Chicago, who was looked upon as neutral, although a friend of Gates. Gates went to Europe. While he was away, the story goes, Osgood elected only four Gates directors out of the thirteen, including Mr ors out of the thirteen, including Mr Mitchell. Ever since that time Gates, Mitchell, Lambert, Blair and their friends have been on the warpath for Osgood, and the fight now on is the result. Under the Osgood agreement, it is said, Gates turned over to Osgood proxies for himself for 83,000 shares, and Charles G.

Gates secured others to make 150,000 shares out of a total of 260,000. This majority gave Osgood full control. President Osgood gave out a statement last night in which he asserted that the present board of directors would continue in office. The statement was issued after Mr. Osgood had seen the statement made by the Gates faction subsequent to djournment of the meeting of stockholders in obedience to the injunction issued by Judge Mullins. Mr. Osgood was seen at the Denver Club. He said:

The board of directors, as was shown in he recent case before Judge Riner, has intructed the secretary to secure and keep took showing the names of all stockholders, ransfer of stock, &c. in accordance with the aws of Colorado. This book will be the assis for determining who the stockholders of the company are and their right to vote or directors.

of the company are and their right to vote for directors.

It is the purpose of the company strictly to comply with the Colorado laws, it was never the purpose of the officers will-uilly to evade this law, but as no stock-holder applied to have the transfer of his stock registered, as provided in the statute, until Mr. Gates's attorney surred the matter up, no book was kept. The board of directors hope to be able to comply with the Colorado law, and at the same time with the New York stock organizations, so that stock will not be stricken from the list.

But the provision of the tolorado law making it essential, where money is loaned on stock, to have the fact that the stock is pledged as security noted on the Colorado hook within sixty days will, at least, be the cause of great inconvenience, as Stock Excause of great inconvenience, as Stock Ex-change houses which buy stock for their customers on margin have to use it in their loans, and this may make it necessary to seek relief at the next session of the Legis-

Had the injunction not been granted the Osgood forces were prepared to defend their claim by force. They had a squad of armed deputies on hand at the offices of the fuel company. They were carefully concealed, but were there ready for trouble. Every man was selected with a view to his special fitness for an emergency. As it turned out, they were not called into re-quisition, and Osgood retired, safe in the knowledge that his case rested securely with the court

To Form New Subsidiary Corporation of the Pennsylvania System.

BALTIMORE, Md., Aug. 21.-The stockholders of the Baltimore and Potomac Railroad Company called a special meeting to-day and a resolution was unanimously adopted to merge the company with the Philadelphia, Wilmington and Baltimore Railroad. The details of this merger provide for the organization of the Philadelphia, Baltimore and Washington Railroad Company, with a capital stock consisting of 507,000 shares of the par value of \$50 a share, amounting in the aggregate to \$25,350,000. This stock will be almost entirely by the Pennsylvaina Rail-road Company and the Northern Central Railway Company. The company will also take care of the bonded debt of the two companies absorbed. This amounts to about \$12,500,000. It will be one of the largest of the subsidiary corporations of the Pennsylvania system and its general office will be in Philadelphia. This merger is in line with the general policy of the Pennsylvainia Railroad Company to consolidate the smaller lines into groups. It embraces one of the most important avenues of the Pennsylvainia system, as it includes the line from Philadelphia to Washington and a number of important branches. mington and Baltimore, 634. Total, 727

Big Gas Merger in Chicago. CRICAGO, Aug. 21.-The gas companies of Evanston, Cicero and Blue Island have been amalgamated into the Northwestern Gas Light and Coke Company. The final details of the deal have been made and new officers of the corporation elected. The company is capitalized at \$10,000,000. This merger gives the new concern control of almost all the gas supply of the suburbs north and west of Chicago.

Stock Exchange to Close Aug. 30. The New York Stock Exchange will close on Saturday, Aug. 30. Labor Day comes the following Monday.

Business Troubles.

creditors' petition in bankruptcy was filed yesterday against Burrell & Corr, manu-facturers of umbrellas, at 12 White street. Judge Adams of the United States District Court, has appointed Alexander Brough temporary receiver of the assets of Arthur F. Wilson & Co., stockbrokers, of 50 Broadway, against whom a creditors' petition in bank-ruptcy was filed on Aug. 15. It is stated in the papers that E. H. Miller, one of the partners, disappeared from New York on July 24, taking all the books and papers of the firm, and is believed to be in Baltimore.

THE PROPERTY PROTECTION OF THE PROPERTY OF THE

JUSTICE RUSSELL RESIGNS. His Resignation to Take Effect Oct. 1

Candidates for the Appointment. OGDENSBURG, N. Y., Aug. 21.-The resignation of Supreme Court Justice Leslie W. Russell of Canton was announced to-day by the publication of a letter from Gov. Odell acknowledging the receipt from Justice Russell of a letter announcing his intention of resigning, the resignation to take effect on Oct. 1. Gov. Odell's letter acknowledges the good reasons given for the resignation and expresses his regret for the loss to the State of the valuable services of Justice Russell.

Justice Russell's resignation has been expected for several weeks, and now the campaign for the appointment to the va-cancy is on. The number of candidates for the appointment and their high standor the appointment and their high stand-ing professionally make a most interesting situation. The candidates at present are Court of Claims Judge John M. Kellogg of Ogdensburg, former Surrogate Vasco P. Abbott of Gouverneur, County Judge Swift of Potsdam and former District Attorney Ledyard P. Hale of Canton, with several dark horses in Franklin and St.

Lawrence counties.

Senator George R. Malby is supporting the candidacy of Judge Kellogg, who is the favorite in the race; but the other candidates are putting forth strenuous efforts, and at least one of them has openly threatened, in case the Governor appoints Judge Kellogg, to carry his fight into the Judicial Convention next year, relying upon his personal popularity to defeat

Judicial Convention next year, relying upon his personal popularity to defeat Judge Kellogg for the full term of four-teen years. While these threats are not regarded seriously, they afford a basis for much speculation and gossip.

It is understood that Justice Russell will resume the practice of law in New York, retaining his country home at Canton, where he is president of the First National Bank.

ALDERMAN'S BROTHER NABBED By a Private Detective With a Badge - The

Julius Schappert, a brother of Alderman Schappert, who lives at 1813 Second avenue, was walking along Third avenue early vesterday morning when a man tapped him on the shoulder and said: "I want you. I'm a detective and you're my pris-

"Haven't you made a mistake? I haven't broken any law," the Alderman's brother said.

"Where's that \$3,000,000? You didn't know that Maud, the Philadelphia detective, was on your track. Come along," said the man as he seized him by the arm and displayed a shield

"I think you're a fake," said Schappert who tried to wrench away from the man's who tried to wrench away from the man's grasp. The man was carrying an umbrella and he whacked him over the head with it. It broke, but he continued to beat him with the pieces. The two were engaged in a scuffe when Policeman Butler came along and arrested the detective, who said he was Adolph Maud of Philadelphia.

When he was arraigned in the Yorkville police court he handed up to Magistrate Mayo a shield on which was inscribed: "Standard Detective Bureau. 113. Corresponding Detective."

iding Detective. "This thing don't authorize you to arrest

any one in this city. What do you mean by seizing this complainant?" the Magistrate wanted to know.

The prisoner said he was a private de-The prisoner said he was a private de-fective and wanted Schappert arrested because he called him a fake. The Magis-trate fined him \$5 which he paid from a good-sized roll of bills.

WOES OF THE WIDOW JANITOR. Folks on the Second Floor "Smokes Dope"

and "Ain't No Good, Nohow." An elderly colored woman who wore on her head a blue cotton polka-dotted handkerchief in lieu of a hat called at the Tenderloin police station last night and demanded to see the captain. Sergeant Sheils told her he was in charge

and asked her what she wanted "I'se come heah," she said, "to make complaint. Dat dope smokin' in my house is drivin' me crazy."

"What do you mean by dope smoking, madam?" asked the sergeant.
"Huh! Don't youse know w'at dope smoke is? Why Chinee smoke. It's in 140 West Twenty-seventh street. I'se Miss Dalton, der widow janitor. Der parties on der second floor does it. Dey always smoke dope nights. When I kin leave my windows open I don't mind it, but when dey are shut it's simply awful. Does folkson dat second floor ain't no good, nohow. Dey are what's called sportin' "What do you mean by dope smoking nohow. Dev are what's called sportin' folks. Der woman she works, but der man he don't do nuthin'. He jest wears diamonds an' smokes dope. My 'pinion o' dem is dat they're poor trash an' aint respect'ble

Sergeant Shells told the colored woman that her complaint would be attended to and that the police would compel the dope

O'BRIEN'S PLATOON SYSTEM.

PROVIDES FOR TWO PLATOONS IN NAME, BUT FOUR IN FACT.

According to the Captain, the Policemer Will Have More Certain Hours of Rest and the City Will Be Better Guarded During the Early Morning Hours.

Police Captain Stephen O'Brien made public yesterday his scheme for an improved two-platoon system which he had submitted previously to Commissioner Partridge and the other members of the Mayor's committee for the reorganization of the Police Department. His plan practically provides for four platoons, or, as he puts it, for two platoons divided into two sections each. When a man passed from one platoon to the other was not set forth in the typewritten statement which the captain had prepared in explanation of his system.

Under the present system the police day lasts from 6 o'clock in the morning till the is divided into five tours of patrol, as follows: 6 to 8 A. M., 8 A. M. to 1 P. M., 1 P. M. to 6 P. M., 6 P. M. to midnight; midnight to 6 A. M.

The police day under the O'Brien system is made to last from 7 o'clock one morn-

is made to last from 7 o'clock one morning to 7 o'clock the next. It is divided into four tours, as follows 7 A. M. to 1 P. M., 1 P. M. to 6 P. M., 6 P. M. to midnight, midnight to 7 A. M.

This does away with the "dog watch," as the early morning tour of only two hours is called. This, Capt. O'Brien maintains, is one of the best features of his system. At present the time of the "dog watch" is the favorite working time of burglars and thieves. The average patrol duty performed by

patrolmen under the new system will be five and one-half hours on day tours to six and one-half hours on night tours. Their reserve duty, which lasts from eleven to thirteen hours at a time, is so arranged. the captain contends, that they will always be well rested and in good condition when they leave the station for patrol duty. One-half of the force is always on duty between midnight and 7 o'clock in the

morning.

Once in every eight days each man has a "night off" following or preceding his regular "day off." This means that he will be excused from duty for twenty-nine and one-half hours in succession. The schedule places patrolmen, roundsmen and sergeants practically on the same

PARTRIDGE QUIZZED ABOUT RIOT Mayor's Committee Will Question Cross

Next - Indicted Policemen Shifted. Mayor Low's Jewish riot investigating committee held two long executive sessions yesterday. Committeeman Louis Marshall | market. said last night that the morning meeting was given up to discussion, but that in the afternoon Police Commissioner Partridge and Inspector Brooks were before the mmittee for nearly two hours and made statements. The nature of these state-ments Mr. Marshall did not feel at liberty

Col. Partridge, Mr. Marshall said, furnished the committee with certain data bearing on the riots and also upon the work-ings of the Police Department, and promised ings of the Poice Department, and promised to submit more information along the same lines at another meeting to be held probably on Monday. The committee asked the Commissioner to have Inspector Cross and Deputy Commissioner Thurston appear before them at that time, and the Com-missioner promised to do so.

Mr. Marshall said the committeeprobably would not make its report before September Roundsman Jackson and Patrobnan Henry Doupe of the Delancey street sta-tion, who are under indictment for as-sault in the riots, were yesterday trans-ferred by Commissioner Partridge, Jack-son to the Brocklyn Bridge and Doupe to the East Sixty-seventh street station. The Commissioner would give no other explanation of his order than that he thought

Canadian Pacific Line Into New York. A call has been issued for the annual

neeting of the stockholders of the New York, Ontario and Western Railroad in this city on Sept. 24. It is expected that at this meeting a proposition from the Cana-dian Pacific Railway Company will be con-sidered leading to a combination between the two companies for a direct Canadian Pacific line into New York.

FINANCIAL AND COMMERCIAL.

THURSDAY, Aug. 21. Dealings in stocks came measurably close to yesterday's large record and for a time the upward movement of prices that had been in progress practically all of this week was continued. In some cases the advances were quite vigorous, but eventually irregularity developed, followed by almost general declines, averaging a point or more throughout the list. With the exception of a further sharp break of 8 points in Colorado Fuel and Iron, making an extreme decline of about 13 points in the last two days, there was little beyond profit taking to account for the general reactionary movement of prices, which in any event did not exceed what might be termed fair limits, considering the previous rise.

The selling of Colorado Fuel and Iron was again, for the most part, by the adherents of the principal members of the party that is opposed to the present management and this interest was also credited with liberal sales of other stocks in which it had been active on the long side. Insame hour next morning and that period evitably the severe further decline uncovered a number of stop loss orders both in Colorado Fuel and in other directions. It is to be doubted, however, whether the more prominent parties to the struggle have fully exposed their hands. Efforts to attribute the downward course of prices to the lack of instantaneous authoritative explanations of many large projects and readjustments were not regarded seriously by experienced operators.

While the money market displayed continued ease, owing to further large offerings of funds by the local trust companies and for account of institutions in Philadelphia and other leading centres, and the banks made a further gain in their dealings with the Sub-Treasury, the transfer of \$200,000 through that institution, in equal amounts to Cincinnati and New Orleans, caused some apprehension that the much-discussed movement of funds to the interior for crop-moving purposes has begun.

London's operations in this market were reduced to about one-half of vesterday's aggregate and the transactions on balance. mainly sales, were less than 10,000 shares The foreign exchange market was a shade firmer. The probabilities of a break in the ranks of the striking anthracite miners were again seriously discussed and favorable impressions in this regard were reflected in greater activity in the shares of some of the anthracite coal companies than for some time past. The movements referred to were upon an advancing tendency of prices, but most of the improvement was lost later, in sympathy with the reactionary tendency of the general

The solution of this great problem of universal interest will undoubtedly be evolved on purely business lines, but the outlook is much more encouraging than would appear on the surface. The majority of anthracite consumers have not as yet sustained any serious inconvenience, and everything practicable to prepare for a rapid resumption of operations at the principal mines, as soon as the men get ready to return to work, has been done. From first to last the entire strike situation has been misrepresented and some of the best authorities in the anthracite coal trade declare that the breaking of the deadlock caused by the insistence of the labor leaders in their efforts to control the properties, is getting to be a question

of days instead of weeks. The feature of the railway list in extent of trading was Denver and Rio Grande common and the stock in the early dealings rose 2 per cent, and the preferred nearly as much. The common at the close showed a net loss of a point, on transactions in excess of 101,000 shares. The preferred left off practically unchanged from yesterday. Other railway shares that were conspicuous for activity included Ontario and Western, which retained part of an early advance of over a point, Erie common, Missouri Pacific, Southern Railway, Southern Pacific, Texas and Pacific, Union Pacific, Atchison common, Canadian Pacific and Chicago Great Western. The stocks mentioned sustained net losses ranging from fractions to a point or more. Louisville and Nashville, on active trading, left off 5

per cent, lower. Reading was comparatively active, but lost all of an early improvement of about a point. On light dealings Wheeling and Lake Erie common, and Toledo, St. Louis and Western preferred, gained 1 and 114 per cent. net, respectively. Kansas City Southern, on profit-taking, lost all of an early rise of 1% per cent. In the specialties, Western Union was a conspicuous exception to the general declining tendency and finished a point higher and within a shade of the best price of the day, on trans-actions of nearly 49,000 shares. The strength and activity of the stock was again accompanied by suggestions of poo-operations. The extent of the movement operations. The extent of the movement was considered inadequately explained by the current reports of a squeeze of shorts and the coincident rise in American

shorts and the coincident rise in American Telephone and Telegraph was regarded by the Street as possibly significant of important developments.

In the industrial list United States Steel issues were less active and closed at slight fractional declines, while General Electric, Sloss Sheffield, and Distilling of America preferred certificates established substan-tial pat gains on nominal transactions. preferred certificates established substantial net gains on nominal transactions. The railway bond market was fairly active, with some irregularities of movement, in sympathy with the stock list. The weak feature was Colorado Fuel and Iron convertible 5s, which declined over a point as compared with yesterday's closing figure. In the curb market dealings were on a lighter scale and the movement of prices showed irregularity. The stock market closed weak.
